

MARKING DOTS

Marking Dots produced by EKOTECH are the perfect solution for temporary mounting of non adhesive labels to KLT boxes or other transport units.

Material

Our marking dots are products from one standard PE coated fabric tape with a special removable adhesive. We also can propose marking dots with a permanent adhesive as well as marking dots produced from a variety of tesa brand tapes as 4657 or 4651.

Applications

- Temporary mounting of transport labels
- Warehouse identification
- Hole covering

Advantages

- Good adhesion to different surfaces
- Tear resistant carrier
- Writeable surface
- Clean removable

Product Range: Choose the Right Quality

Choose one of the below products or ask for another solution out of endless possibilities.

Budget — 31601

- Duct tape base with **Hotmelt adhesive**
- **Non-clean removal**
- **Total thickness: 0.22 mm**

Best for cost-driven applications where residue is not critical.

Standard — 31605

- **0.30 mm** thick duct tape base
- **Natural Rubber adhesive**
- **Clean removal**

Balanced performance for most temporary label applications.

Standard+ — 54688

- Based on **tesa® 4688** raw material
- **0.30 mm** thick duct tape base
- **Natural Rubber adhesive**
- **Clean removal**

Enhanced reliability with premium raw material.

Premium — 54657

- Based on **tesa® 4657** high performance duct tape
- **Clean removal + high temperature resistance**
- Suitable not only for labels — also for **masking and full covering processes**

Your choice for demanding environments and elevated process requirements.

As standard we produce our marking dots as Die Cuts on reel. All other shapes are possible. We can also produce all our products in sets.

Products

- One row on reel
- Two rows on reel
- Four rows on reel

And special upon request
